

# COFFEE MENU

At Black Vice we are committed to finding and showcasing only the very best coffees from around the world. We are passionate about delivering a broad and unique range of coffees of differing varieties, processing methods and flavours.

For us coffee is about relationships, we cherish the great relationships we have fostered with farmers, producers and exporters. We consider it an honour to have this opportunity to showcase their coffees, as well as sharing their stories.

We hope that through this curation you will not only be able to enjoy new and exciting coffees, but also gain a deeper appreciation for and connection with the work of coffee producers.

Sit back, relax & enjoy our ritual.

## BLENDS

### HURSTY

Rich chocolate · nougat · caramel
